

DermiVeil

FLAWLESS LOOK

A 100% NATURAL, VISUAL AND SENSORIAL MODIFIER.

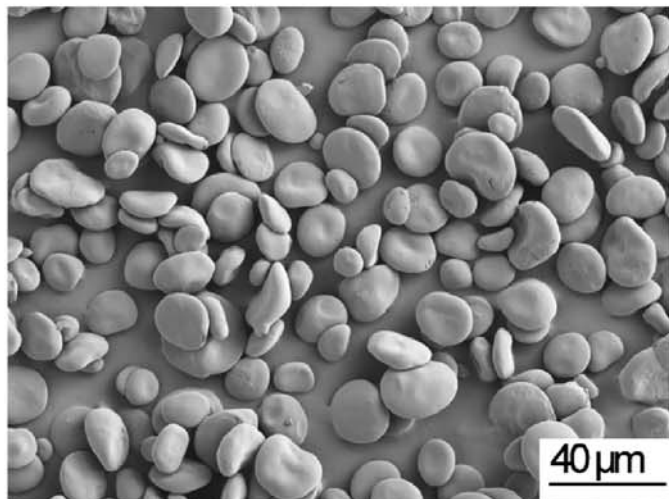

DermiVeil (*Hordeum vulgare* (Barley) Powder), is a 100% natural, unmodified starch that is extracted from Scandinavian grown Barley using advanced milling technology. Tests show that DermiVeil helps to control residual and immediate oiliness and shine on the skin whilst reducing stickiness, making it ideal for use in a variety of dry shampoos and colour cosmetics applications. The fine particle size makes the transition between covered and non-covered skin almost invisible, making DermiVeil ideal for compact mattifying powders.

FESEM Micrograph of DermiVeil

TECHNICAL DATA*

INCI	<i>Hordeum vulgare</i> (Barley) Powder
Origin	Finland
Physical Form	Free Flowing Fine Powder
Colour	Pure White
Particle Size	16.5 μ Avg.
Oil Absorption	7.2g per 10g
Water Absorption	7.6g per 10g

*Indicative Typical Values

FIELD TO FACE

DermiVeil is produced from pure Finnish, non-GMO barley. All barley as a raw material is traceable back to harvesting farms and special contracts with farmers ensure environmentally controlled growing conditions. Barley is grown near the production facility - minimizing need for transportation.

WHY DERMIVEIL?

Benefits

- ▶ Fine particle size makes for smooth transition between covered and non-covered skin.
- ▶ Particularly high oil and water absorption.
- ▶ Helps control immediate and residual shine.

Formulation Guidelines

Recommended Usage level:

7-15% for dry shampoos.
10 -30% for colour cosmetics.

Recommended Temperature:

Formulate up to 70°C.

Recommended pH Level:

Can be formulated within a wide range of pH levels.

Approvals

- ▶ Not Tested on Animals
- ▶ GMO Free
- ▶ ECOCERT Approved Natural
- ▶ China INCI Compliant
